

Curas and Digital Systems Solutions Announce Partnership

Bringing Curas' Nationally Recognized eClinicalWorks Services to Digital System Solutions Clients

June 9, 2008

Working to bring physicians the most compelling end-to-end electronic medical records experience in the market, **Curas and Digital Systems Solutions today announced a strategic alliance to deliver Curas' nationally recognized eClinicalWorks implementation and support services to Digital Systems Solutions clients.**

"Digital Systems Solutions has proven to be a consistent top performer since joining eClinicalWorks in 2004 as a reseller," said Linda Beaty, Digital Systems Solutions President. "The partnership with Curas, Inc. allows us to offer not only an exemplary sales experience, but to provide the same level of excellence in implementation and support after the sale, that our clients have come to expect. Both companies are known for their integrity and exemplary performance as well as superior technical expertise. By offering a superior product, the eClinicalWorks Electronic Medical Record System, with the talent and experience of the combined company, an unsurpassed total experience is now available to the market."

"Curas' goal is to help physicians successfully accomplish the daunting task of transitioning to a paperless office," said Num Pisutha-Arnond, Managing Partner at Curas. "Since 2004, we have helped over 450 physicians achieve this across 30 states. With this partnership, we will be able to leverage the reputation and sales reach of Digital Systems Solutions to reach an even greater number of physicians."

Digital Systems Solutions, which recently was selected by the Memphis Medical Society to offer eClinicalWorks to its members, has a strong reputation and established sales presence in 13 states including Tennessee, Arkansas, Louisiana, and Mississippi. As a Curas partner, Digital Systems Solutions will continue to leverage its established market presence to continue to market and sell eClinicalWorks locally.

Curas, with its reputation as a national leader for eClinicalWorks implementations and support, will serve as the delivery arm for Digital Systems Solutions and provide implementation and support services for all Digital System Solutions clients. Digital System Solutions clients will be able to benefit from Curas' full range of eClinicalWorks related services including: training, workflow consulting, support, installation, data migration, and custom reporting.

By combining the strengths of these two companies with eClinicalWorks, the market leader in ambulatory clinical systems, Curas and Digital Systems Solutions look to bring the best possible Electronic Medical Records selection and implementation experience to Physicians around the country.

About Curas

Curas is a St. Louis area based health information technology consulting company and a Value Added Reseller (VAR) of the eClinicalWorks suite of products for the electronic medical office. From planning through implementation, training and support, Curas has a nationwide reputation for providing the services physicians need to ensure that technology enables their business, not hinders it. Curas' staff of eClinicalWorks certified specialists install the software, train end users, and assist practices with optimizing their office workflow to maximize the benefit they receive from deploying eClinicalWorks' products. Curas maintains its own call center providing Level 1 and Level 2 support to its clients. In addition to servicing and supporting clients in Missouri, Illinois and Kansas, Curas is frequently called upon by eClinicalWorks and other eClinicalWorks VARs to install and train users at various sites around the United States. Today, Curas supports over 450 physicians in over 30 states with practices ranging in size from solo practices to multi-specialty 50 provider practices. About Digital Systems Solutions

Preferred Computer Solutions, the parent company, was founded in 1999 to serving commercial markets in the Mid South area. In 2004, Digital

Systems Solutions, headquartered in Cordova, TN, was formed as a division of the parent company, to serve the medical community's electronic record keeping needs. After reviewing a great number of products, we chose to become resellers of eClinicalWorks because it is an affordable, completely integrated product with a proven record of reliability from a very stable company. With in excess of 50 clinics installed to date in 13 states Digital Systems Solutions is a leading reseller of eClinicalWorks. Digital Systems Solutions works with a number of large FQHC (Federally Qualified Health Centers) clinics including White River Rural Health in Augusta, Arkansas and Las Clinicas Del Norte in El Rito, New Mexico. Digital Systems Solutions also works with over 40 private clinics representing many different specialties. For additional information about Digital Systems Solutions, visit: www.dss.md.

About eClinicalWorks

eClinicalWorks is a privately held leader in the ambulatory clinical systems market. The company's unified electronic medical record (EMR) and practice management (PM) solutions are proven for every market segment: large practice groups, including Massachusetts eHealth Collaborative (MAeHC), Electronic Health Records of Rhode Island (EHRRI) and the New York City Department of Health and Mental Hygiene, as well as medium, small and solo practices regardless of specialty. The company enjoys high profitability with a five-year compounded growth rate of more than 100 percent year-to-year. With an established customer base of 3,200 customers across all 50 states, eClinicalWorks has been awarded multiple top industry honors including being named to the Inc. 500 in 2007, Best in KLAS in 2006, 2005 and 2004, and a top solution by TEPR for four consecutive years. Based in Westborough, Mass., eClinicalWorks has additional offices in New York City and Alpharetta, Ga.

eClinicalWorks is a trademark of eClinicalWorks, LLC.
